## AROUND THE TOWN

The new telephone directory is out. Did you get yours?

Mr. and Mrs. S. J. Vernon left for B. C. on Tuesday afternoon.

Mrs. (Dr.) A. J. Weart returned from her visit to Ontario on Friday last.

Mrs. James Hughes has returned from visiting friends in Ontario.

Rev. Mr. Marshall attended the Presbytery meeting in Calgary at the beginning of the week.

A surprise party was given by a number of young people to Stanley Meyer on Monday night. A very enjoyable time was spent by those present.

First it's Bassano with its big prize fight, now it's Cochrane and Morley with a gold find. Who's next for some good publicity dope that has to be taken in small doses.

Carl McKay is getting into good trim for his wrestling match with Boode. He says he has the staying powers now and will take on mat work until the match.

Mr. John Rhodes, who was brought to Didsbury with a badly injured foot, and who is progressing towards recovery, has been removed from Mrs. Sick's residence to Mrs. J. A. Mortimer's.

Miss Kathleen Osmond was the small hostess on Monday last at a birthday party given in her honor at which nearly a dozen wee maidens were present to help her celebrate the day.

Do not miss the service at the Adventist church on Friday evening, March 8th, at 8 o'clock. Sabbath—Sabbath school at 2 o'clock, preaching service following. A cordial invitation extended.

Twenty-two electric lights have been installed at the C. P. R. depot and as soon as they can get the poles in another one will be put at each end of the platform. This is a great improvement over the old style of lighting.

The pastor of the Baptist church expects to preach on Sunday morning next on "The Coming of Christ, When, How, Where," and in the evening on "A Renewed Consecration and Its Results." All heartily invited.

Mr. C. L. Peterson has sold his team of fine Ping Pong colts to J. Baptist of Sunnyslope at the handsome price of \$300. The colts are coming two years old and stand about 15 hands and are well matched.

Mr. W. J. Scheidt returned from his visit to Iowa, Dakota and Minnesota last week. He reports a stormy time with lots of snow and cold weather. Miss Lydia Scheidt returned with her brother and will visit here for a time.

The services of the English church, commencing Sunday, March 18th, will be held both morning and evening. Morning service at 11 a. m., evening service at 7 p. m. Celebration of holy communion on the first Sunday in each month.

### None of the Symptoms

"Doctor," said the sick man, "I'm afraid my nerves are in a bad condition." "Oh, no," replied the physician, "that's not what is the matter with you. The fact that you have sent for me after ignoring the statements I've been sending you regularly during the past year and a half indicates that your nerve's all right."

Actor—What, back so soon? Didn't the play take?  
Actress—Yes, the play took; the manager took the receipts, the half-hits took the scenery, the landlord took the trunks, and the author took to drink.

### Insults Would Cease

"The tip is an insult," says the Chicago Record-Herald, "insulting the waiter then is what keeps travelling men poor."

**A Purely Vegetable Pill**—The chief ingredients of Paralee's Vegetable Pills are mandrake and dandelion, sedative and purgative, but perfectly harmless in their action. They cleanse and purify and have a most healthful effect upon the secretions of the digestive organs. The dyspeptic and all who suffer from liver and kidney ailments will find in these pills the most effective medicine in concentrated form that has yet been offered to the suffering.

"And what happened in the interim?" a solicitor asked a witness in a public house case.  
"I don't know, sir," was the reply.  
"I didn't go into the interim, I stayed all the time in the smoking room."

## NERVES AT HIGH TENSION

Necessary in This Age of Keen Competition and Great Accomplishment.

When the Body Fails to Support the Brain Seek the Help of

**DR. CHASE'S NERVE FOOD**

Nervous people are the salt of the earth. The great men and great women are usually those of nervous temperament.

But it takes an enormous quantity of blood to supply energy to the great brain or a highly tensioned nervous system.

Digestion fails because nerve force is lacking to control the flow of digestive fluids. A little extra excitement is followed by the agony of a sleepless night. You are easily irritated and lose patience, you lack the reserve force which is necessary for success and to ward off disease.

Unfortunately nervous diseases do not right themselves, and since your digestive system fails to supply sufficient nourishment you must seek external assistance such as Dr. Chase's Nerve Food.

This great food cure is not a narcotic to deaden the nerves. It is not a stimulant to whip up the nerves to renewed effort.

Dr. Chase's Nerve Food feeds the feeble, wasted nerves back to health and vigor. It floods the nervous system with new rich blood, the only substance from which nerve force can be made. Fifty cents a box, 6 for \$2.50 at all dealers or Edmondson, Bates & Co., Limited, Toronto.

## This Food-Tonic Quickly Restores Strength

After a serious illness, ordinary food should be supplemented by a strengthening tonic for this purpose.

**NA-DRU-CO Tasteless Cod Liver Oil Compound**

Is recommended very highly. In the preparation the disagreeable flavor of the natural Cod Liver Oil is entirely removed, while its well known nourishing and tissue-building qualities are retained. Thus we add hypophosphites to build up the nerves. Extra of Wild Cherry for the Lungs and Bronchial Tubes, and Sarsaparilla to food itself which aids in the assimilation of other foods.

Children in particular enjoy the pleasant Flavor of Na-Druc-Co Tasteless Cod Liver Oil Compound, and quickly regain health and strength when Nature is aided by this natural food-tonic. Your Druggist has it in 50c and \$1.00 Bottles.

There was a meeting of new and old teachers. It was a sort of love feast, reception or whatever you like to call it. Anyhow all the teachers got together and pretended they didn't have a care in the world. After the eats were over, the symposium proposed a toast:  
"Long Live Our Teachers."  
It was drunk enthusiastically. One of the new teachers was called upon to respond. He modestly accepted. His answer was:  
"What On?"

No doubt the large number of auction sales that have taken place in the last few weeks in this district have been the cause of a good deal of comment, especially amongst those who do not understand the reasons for them. In a few instances the cause is the same as it always has been, a restlessness to seek newer locations or through sickness in the family; but in most cases it is because the sellers have sold their farms to good advantage to outsiders or else they are going into business in the towns or are changing from grain growing to mixed farming. The latter feeling seems to predominate. The price of dairy cattle and hogs received at the sales where those animals were put up indicate this. Take for instance dairy cows, which have ranged from \$60 to \$75 and \$75 per head for ordinary good milk stock; the same with hogs. There is no question about it that this is one of the best mixed farming districts in the country and the farmers are realizing this more and more every year that goes by.

### Time to Prepare Now

It is time to prepare for the making of an exhibit at the Seventh International Dry Farming Congress at Lethbridge, Alberta, October 21 to 26. If this district is going to carry off any district or individual prizes at that big exposition, which is the biggest boosting project for Western Canada that has ever been undertaken, it is time to start thinking about it right now. The district that wins the big blue ribbon prize, the silver cups and the rich premiums, has got to deliver the goods this fall, for there is sure to be the keenest competition. It means hard and consistent work to make a good exhibit, and this work has to be undertaken for the very beginning of the planting season, and yet there is not a district in the four western provinces that can afford to let this opportunity of making that district famous the world over slip by. If everyone endeavors to raise something a little bit better than his neighbor we can get together an exhibit we will all be proud of, and we might win the best in its line. Farmers who desire information should write to the headquarters of the Congress at Lethbridge.

## Robin Hood Co. to Take Possession

The purchase of the Calgary Milling Co. by the Robin Hood Co., is now completed, and the Robin Hood Co. expect to take possession just as soon as stocktaking and valuating has been completed. The deal involves nearly half a million dollars.

Mr. Harvey, one of the officials, who is at the Alberta hotel, stated that it would be the intention of the Robin Hood people to increase the size of the Calgary mills to double the present capacity. This means that the new firm will turn out from 1,500 to 3,000 barrels daily. "The Seal of Alberta" brand and others will be manufactured here.

The Robin Hood Co. will in addition to the Calgary plant, rebuild their mills at Moose Jaw, which were recently destroyed by fire. The contracts for the building of these mills have already been let.

The purchase of the Calgary Milling Co. includes the mills at Calgary and the elevators in the various parts of the province that are connected with the mills.—Albertan.

Chamberlain's Cough Remedy has won its great reputation and extensive sales by its remarkable cures of coughs, colds and croup. It can be depended upon. Try it. Sold by all dealers.

### SURE SIGNS

#### Of Kidney Trouble

If your back is constantly aching and if you experience dull shooting pains, your kidneys are out of order. If your urine is thick and cloudy or your passages frequent, scanty and painful, your kidneys and bladder are out of order. Neglect quickly brings on rheumatism, diabetes, lumbago, sciatica, etc.

Mrs. John Wagner of 110 Hollis street, Halifax, N. S., says: "Dull shooting pains would catch me across the small part of my back and extend into my shoulders and neck, often causing me to suffer with severe headaches and spells of dizziness. Spots would dazzle before my eyes and everything would turn black; I would feel the floor and be unable to get up again without assistance. A friend told me of Booth's Kidney Pills and I began their use. The first box gave me relief and I am now well and strong."

All druggists sell Booth's Kidney Pills, Sec. 1 a box with a guarantee to relieve or your money back. They are the world's greatest specific for kidney and bladder trouble. Postpaid from the proprietors, the R. T. Booth Co., Limited, Fort Erie, Ont. Sold and guaranteed by H. W. Chambers.

# ONTARIO IS GRANTED ACCESS TO PORT ON HUDSON BAY

Eastern Province is Given Strip of Land Five Miles Wide For Continuance of Her Government Railway-- Will Also Have Ten Mile Water Front

Ottawa.—In the extended territory of Manitoba the demands of Ontario have not been forgotten, as the announcement made by Premier Borden in the house during the discussion of the resolution demonstrated. Ontario will not have a port on Hudson Bay, but she will be granted a strip of land five miles wide for the continuance of her government railway to that port, and a 10 mile water front along the mouth of the Nelson. This, in effect, was the gist of the announcement made by the premier, an announcement which has resulted in much comment throughout the corridors. It was reported several days ago that Ontario would be satisfied by the granting of a right-of-way to the bay, but that province has been granted more. She has been granted a subsidy for the transport of coal, the right-of-way width, but 5 miles wide, which will extend for nearly 100 miles, and which will involve substantially a grant of land of 2,200 acres to the mile, or of 220,000 acres in all.

The order-in-council from which the premier made his announcement provides for the transport of coal, Ontario government, a minister of that government, or a commission, a piece of land of the Hudson Bay territory, 5 miles, commencing at a point to be determined by the government of Ontario from the mouth of the Nelson to Manitoba to the Nelson river, Ontario is, however, restricted in her choice of starting the right-of-way. It is required that the strip only shall run not more than 50 miles at any point from the bay. On reaching the Nelson a further strip, not more than half a mile wide, shall be granted on

the east side for a distance of not more than 10 miles as a continuous water front along the river or shores of the bay. The province in this concession will be granted such interest in the river as will permit of the dredging, maintenance, and operation of docks, levees, etc.

In the event, however, of the terminus of the Hudson Bay railway being established at Churchill, and if the province of Ontario chooses that point also as a terminus of right-of-way 200 feet wide will be granted from the Nelson river to a junction of the Hudson Bay railway with the Ontario government line having running rights over it. In the event of the province desiring to construct a railway beyond the borders of its own province the government will create such legislation as will favor the province to gain all the rights necessary for the operation of that road.

In the order-in-council the condition is imposed upon the province to build the railway. All that is required is that the province shall complete the railway within five years. After that the province controls and owns the strip without being compelled to build.

The jurisdiction of Manitoba will extend to the territory granted Ontario insofar as separate schools are concerned. "One of the most extraordinary legislative jumbles" was the opening comment of Sir Wilfrid Laurier when the announcement was made. It meant, he said, that one province would have sovereignty within the boundaries of another. Mr. Borden disagreed. It was the same, he said, as making a grant to a province for railway construction instead of to an individual.

## TO BENEFIT THE SETTLER

### Encourage Homesteaders to Acquire More Property

Ottawa.—Hon. Oliver Rogers is contemplating certain changes in homestead regulations which will tend to make the easy money to be made so far as homesteaders are concerned, and aim to benefit the settler who enters the country with a view to settlement. Robert Cruise, M.P. of Dufferin, has been advocating since his arrival in the house this session, an amendment whereby men settling on scrub lands such as are open to homesteaders could be required to break up the same amount of land each year as is required of the prairie settler.

Cruise points out that whereas prairie breaking may be done for 50 an acre, it costs from \$10 to 40 an acre to break up scrub land. As the regulations stand at present, therefore, the homesteader is encouraged to acquire a scrub homestead rather than a prairie homestead, when, as a matter of fact, the former should receive more encouragement than the latter. The suggestion of Cruise is that the homesteader should be required that the regulation of the amount be based accordingly. In this manner, the homesteader would be required of a man who settled on scrub land. It is believed that another change would be made in the regulations with homesteaders taken by farmers owning land adjacent. At present a man is required to break up 40 acres of land at some distance away, provided that his payments on the original property are not in arrears. Cruise asked that the arrangement be further and that if the owner of the property is not in arrears he be permitted to break up the land adjacent to his homestead. He said that he had a second homestead.

## TO BUILD LINE TO PEACE RIVER

### French Syndicate Capitalized at \$5,000,000 to Build Western Railway

Edmonton, Alta.—A French syndicate incorporated under the name of the Pacific and Peace River Railway Company, Ltd., has been organized, the organization of a railway company capitalizing at \$5,000,000, the capital being subscribed exclusively in France. The purpose of the company is to build a railway from Dunvegan to Bella Coola, B.C., the route followed being the shortest route to the Pacific. A federal charter was granted last week to the syndicate by the Dominion Government. The power to the Pacific and Peace River Railway Company to construct and operate a railway from Bella Coola on Burr Channel, B.C., to a point at or near Dunvegan, touching at Fort Fraser, B.C., and ending at the mouth of the Peace, the route being in all about 180 miles.

## AVIATION FLEET FOR BRITAIN

### England is To Complete With France and Germany in Aeroplanes.

London.—The British government is contemplating a fleet of aeroplanes to compete with France and Germany in building up an aviation fleet. It is estimated that the coming estimates will contain a liberal provision for the purchase of aeroplanes. The government has already ordered and before summer the army will possess from 24 to 30, which will be used to meet the requirements of the army.

The activity of Europe in this direction has been very marked. The French minister of war, that \$100,000,000 would be expended in aeroplanes during the coming year, and that Germany intends to increase her expenditure for this purpose from \$25,000,000 to \$30,000,000.

## WANT 50,000 WORKMEN

### Grand Trunk Pacific Railway and Canadian Northern Anxious to Complete Line.

Winnipeg, Man.—The railway companies are now faced with the problem of securing between fifty and sixty thousand men to carry out the vast development programme mapped out by the companies in the Canadian west during the summer of 1912. The work to be undertaken this year is greater than ever before, and it is doubtful whether the total supply will nearly meet the demand. The Grand Trunk Pacific and Canadian Northern railways are anxious to complete their lines, and as both companies are desirous of rushing through their main line to completion.

## TO PREVENT EMIGRATION

### Official Action Being Taken to Prevent People of the Western States Flooding to Canada.

Washington, D.C.—The federal authorities have entered upon a campaign to prevent the emigration of persons from the United States to Canada. It is estimated that about 100,000 persons have emigrated from the United States to Canada between July 1, 1911, and July 1, 1912, and hundreds of thousands more are expected to follow. The United States government is desirous of preventing this emigration, and is taking steps to prevent it.

## Higher Tariff For South Africa.

Capetown.—The tariff commission of the Union of South Africa recommends that a higher tariff be placed on the duties on imported merchandise, with a view to stimulating South African industries.

## QUEBEC AND UNGAVA LAND

### Sir Lomer Gouin Says That Province Expects All Islands as Well.

Quebec.—While the news of the acquisition of Ungava has been welcomed here, Premier Gouin and some of his advisers are not so sure of the boundary resolutions. "I see," remarked Sir Lomer, "that we are going to buy up to the boundary resolutions. I see that the islands of the bay will be included in the acquisition of Ungava. They are not even mentioned in the Federal resolutions."

"In the resolution, which we adopted in the House a couple of years ago, we expressed our desire to obtain all the islands, which belong to us just as much as the shore."

"We asked for all the islands in the Hudson's Bay to the east of the continuation of the boundary line between Quebec and Ontario. This would give us not only the islands along the shore line but also those out in the open."

"I think the omission is inadvertent and it will only be necessary to call attention to the Government in order to get it corrected. Other islands will remain in the hands of the United States, and there is not much sense in that."

## GENERAL CHEN DISAPPEARS

### Fox Chinese Commander Was Deported in Huge Graft Scheme.

Shanghai.—The Chinese government has just notified that a general named Fox, who was made military commander of this city when the rebels gained control, has disappeared. The general was reported to have been taken away by the rebels, and it is believed that he is still in their hands.

General Chen was commanded to buy arms for the troops at Wu Chang. He was reported to have been taken away by the rebels, and it is believed that he is still in their hands. The general was reported to have been taken away by the rebels, and it is believed that he is still in their hands.

## PRAIRIE FIRE PREVENTION

### Deputation From Prince Albert Waits Upon Hon. Robert Rogers.

Prince Albert, Sask.—After attending the annual Convention of the Canadian Prairies Association at Ottawa and forming part of a deputation which waited on the Hon. Robert Rogers, Minister of the Interior, to ask for better fire guarding in this district, A. L. Matthe, manager of the Laramie Company, has returned to the city. He submitted a plan to Mr. Rogers, and he was assured that every consideration would be given to the plan. He will have its time better guarded against fire than has ever been the case before.

## BRITAIN BUYING CLOTH

### Steamers Chartered to Convey Supply From Norfolk, Va., to Gibraltar.

Norfolk, Va.—The British government has begun buying cloth at this port and four British steamers have been chartered to convey the cloth to Gibraltar where it is to be delivered to the British army. The cloth is to be used for the army, and it is estimated that it will cost approximately \$2,500,000. The British navy is in urgent need of cloth, and it is estimated that it will cost approximately \$2,500,000. ### About 800 Cars of Settlers and Effects Booked for Canadian West.

Winnipeg.—The immigration commission has announced that one hundred and eighty cars of settlers and effects are booked for the Canadian west, and will have ultimately 150 cars for Saskatchewan and Alberta points.

## Open Up Dry Farming Lands.

Winnipeg.—The 6,000 miles already in operation in Western Canada, the C.P.R., will have added 200 miles more by Dec. 1st of this year. Following the policy which would make it possible to open up the main line right through the wheat belt from Calgary to the head of the St. Lawrence, the C.P.R. has added 75 miles to its double track road from Regina. Another 75 miles will be added to the main line, which will cover a distance of approximately 200 miles when complete. This will have an additional 100 miles of straight 100 miles this year. This will take about thirty 15 miles of land, and it will have an additional 100 miles of straight 100 miles this year. ## THE SUNDAY SCHOOL

### LESSON X—FIRST QUARTER, FOR MARCH 10, 1912.

Text of the Lesson, Mark 1, 29-35. Memory Verses, 40, 41—Golden Text, Matt. vii, 17—Commentary Prepared by Rev. D. M. Stearns.

The events of this season, the healing of the fever stricken and all manner of diseased people and spirit possessed people and the healing of a leper, are all examples of the kingdom which was at hand, but which did not come because they would not believe. Verse 29 of our lesson summarizes it briefly. "He preached in their synagogues throughout all Galilee and cast out demons." It was more fully stated in Matt. 11, 23, "And Jesus went about all Galilee, teaching in their synagogues and preaching the gospel of the kingdom and healing all manner of sicknesses and all manner of disease among the people." It was predicted by the prophets that in the kingdom the blind would see, the deaf hear, the dumb sing, the lame leap as a hart, the poor would be comforted, the needy, for iniquity would be forgiven (Isa. 35).

It was also predicted that in the kingdom wolves and lambs, leopards and kids, would feed together, the lion and the lamb would feed together (Isa. 11, 6; Jer. 31, 25). "And Jesus went about all Galilee, teaching in their synagogues and preaching the gospel of the kingdom and healing all manner of sicknesses and all manner of disease among the people." It was predicted by the prophets that in the kingdom the blind would see, the deaf hear, the dumb sing, the lame leap as a hart, the poor would be comforted, the needy, for iniquity would be forgiven (Isa. 35). ## PREVENT PRAIRIE FIRES

### Railways Must Have Pioneered Fireguards Along Their Lines in Alberta and Saskatchewan.

Ottawa.—To prevent prairie fires starting and spreading from sparks thrown from engines the railway commission has issued a drastic fire guard regulation affecting all railways operating in the provinces of Alberta and Saskatchewan.

The order provides that every railway company subject to the legislative authority of Canada, operating steam lines in the provinces of Alberta and Saskatchewan shall, on or before Aug. 1 of each year construct along each side of the right-of-way in these provinces, and not less than 400 feet distant from the centre, a fire guard consisting of a row of posts of land not less than 16 feet in width.

This fire guard must be kept free from dry grass, weeds, and other combustible material between Aug. 1 and Dec. 1 of each year. Any failure to comply with the regulations will result in civil damage being placed upon any employee of the companies who leaves gates open or neglects to keep the fire guard in place.

To obviate the necessity of employees of railways going under engines to comply with the regulations, the order provides that the company shall be liable for the cost of the fire guard, and that the company shall be liable for the cost of the fire guard, and that the company shall be liable for the cost of the fire guard.

## AGAINST ENTRY OF HINDOOS

### F. C. Blair Adverse to Allowing Wives of Hindoos to Enter.

Ottawa.—The report of F. C. Blair, who was appointed a special commissioner to inquire into the subject of immigration of Hindoos to Canada, is in the hands of the Minister of the Interior.

It is understood that the report is adverse to further opening of the door to the Hindoo people and states that the admission of the wives of those now in Canada is not in the direction of reopening the whole issue. The contention of Dr. Stander Stuch and his associates are not upheld.

## WANTS FARM IMPLEMENTS

### Russia to Examine Into Merits of Machines From Different Countries.

St. Petersburg.—The Minister of Agriculture has introduced a bill in the Duma providing for the grant of £20,000 rubles (about \$400,000) for the purpose of examining into the merits of agricultural machinery constructed in Canada, England, Germany, Austria and Sweden. The bill favors Russian machinery building in view of the fact that the United States has made a treaty with the United States to take the place of the abandoned treaty of 1822.

## Would Stop War.

Paris.—The Matin understands that Great Britain, France and Russia, acting together, are ready to make energetic presentations to Turkey to bring the war to an end. They only await the adhesion of the German and Austrian Governments before taking a decisive step.

## Neapolis News

We are sorry to state that Mr. D. M. Stuart's health is very poorly.

Mr. John Dougherty has built him a neat little house on his farm and intends to start housekeeping soon.

Mr. Wiley Wilson of Three Hills was a caller at J. D. Ward's Wednesday while on his way to Didsbury.

Mrs. Dr. Adams visited with Mrs. Frank Kiteley on Thursday of last week.

Mrs. Gertrude Shaw has resigned her position as clerk in the Neapolis store and is now teacher in the Selkirkville school.

Mr. and Mrs. Alvon Cook and Mrs. Barbara Peterson and children were Sunday visitors at the Phil Ward home.

Mr. Clarence Stuart visited with the home folks Saturday.

John Dougherty was out to Curlew after seed oats Friday and Saturday.

The "Last Great West" demands the best. There are no better plows than "Great West" sulky and gang plows. See them at the Massey Harris agency, Didsbury.

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all dealers.

## Morrin Notes

Mr. Tom Caesar returned from an extended business trip one day this week.

Some one started a story that the C. N. R. station at Morrin is two feet larger than the one at Mutton. Mutton people are much put out about it.

Mr. Drysdale is building a hardware store.

Much wheat has been handled from across the river to ship from here.

Barth Bous have been busy moving their house the past week.

The Olson family will move into their new house on George's homestead this week.

Northland Bros. are busy handling wheat to Mutton. They get 65 cents for it.

Mr. John Lucas got a fine load of cottonwood poles along the Red Deer Saturday. From the shouting done coming up the hill the "big team" is not in very good form.

Mr. Stauffer's lively barn is crowded these days. He will soon have to build another addition if business continues to increase.

Mr. Farmer—do you want the best implements and machinery that money can buy at prices that are right? You can get them, also a square deal, at the Massey Harris agency.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all dealers.

## Conference Ended

The second biennial session of the Western Canadian Union Conference of Seventh Day Adventists, which has been held in the Opera House, Didsbury, for the last ten or twelve days ended on Sunday last. There was a large attendance from different parts of western Canada, delegates from Manitoba, Saskatchewan, Alberta, and British Columbia, besides many visitors from the different provinces came to enjoy the meetings.

The conference was a decided success throughout. The first few days were devoted to a live study of methods of work in connection with which Mr. H. H. Hall of Mountain View, Cal., gave a stereoscopic lecture on the work of the Waldensian Christian in the early ages of the church.

The instruction given in the ministerial institute was most timely and was much appreciated by all present. Elder A. T. Daniels, president of the general conference; Elder T. B. Thompson, of Washington, D. C., and Elder H. S. Shaw, president of the Western Canadian Union, were the principal instructors. The qualifications of gospel workers were very clearly and forcibly outlined, and appeals made for more entire consecration and more diligent effort in winning souls to Christ. A question-box hour was spent each day in considering such subjects as organization, church discipline, home missionary work, &c. Elder T. B. Thompson gave some most valuable talks on Bible holiness, consecration, the work of the Holy Spirit and kindred subjects.

On Wednesday, February 28th, the business work of the conference was done, the delegates formally seated, the reports of the president and other officers were listened to with more than ordinary interest. Elder H. S. Shaw, president of the union, rendered a stirring report of the work which has been carried on, the progress of the cause and the outlook for the future.

The key-note of the Seventh Day Adventist movement is the carrying of the gospel to all the world in this generation. As a denomination they are giving about 15 cents per member each week to foreign missions. The western Canadian field is not behind in this great movement. In the two years just past \$16,276.82 was sent on to missions from this union conference. The educational work received due consideration. The report shows that this branch of the work is in a most healthy and prosperous condition. A large number of young people are now in training for different lines of gospel work.

The outlook for the future is most hopeful. Some few changes of workers were made, as the interest of the work demanded, and some important aggressive measures were taken, which will undoubtedly greatly aid in the work. Elder Shaw and his able committee were assured of the hearty co-operation of all the workers in the carrying forward of the work in this great western field.

Among other resolutions the following were heartily voted by all present.

Moved by Elder Sandness and seconded by Bro. Wignar that we express our appreciation to the railway companies for their courtesy in granting us free transportation on our return trips.

Moved by Elder Gilbert and seconded by several, that we extend a vote of thanks to the citizens of Didsbury for their kindness and hospitality to the delegates and others in attendance at the conference.

## Better to Go Easy

The reported gold find in the Ghost river near Morley is turning out to be a fizzle according to a Calgary report. It is said that the way N. E. Brady, who was the first to discover the "gold," found it by means of the old fashioned diving rod. That should be enough to disillusion the public.

A representative of the Pioneer in speaking to a gentleman who is in a position to know and does know this country about as well as anyone in Alberta, it was learned that about the only gold that will ever be found outside the interior of the Rockies is wash le gold in the streams which have their source in the Rockies and it is doubtful if this will ever be found in paying quantities.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not one case in ten requires any internal treatment whatever. This liniment is for sale by all dealers.

## Helping the Old Town

The principle of community building has been placed upon a footing in Western Canada with the necessities of growth and expansion. Briefly, it is the principle which leads the residents of a city, town or community to organize and unite for the purpose of adding to and increasing the prosperity of the community in which they live. The usual procedure is to make known to as many people as possible the advantages of living and doing business in their particular town, to attract to the community as many industries and business houses as possible and to make the dwellers in the place feel and appreciate the advantages of living there. The increase of population brings business, which in itself increases the population, the one adding to and increasing the volume of the other by natural law. The result of this movement for betterment and increase in the towns and cities of the west has undoubtedly borne much fruit and it is safe to predict and emphasize the statement made earlier in this paragraph to the effect that to the growing town in the west and in the largely as well, the community builder is a necessity. These movements have taken and will take a most important place in the history of the West.

The greatest factor in these movements is not the money involved nor the individual work and effort contributed. It is no such tangible materials as these—it is a spirit. It is a spirit of willingness to help in the common general improvement and growth, a spirit that is willing to make some sacrifice of private aims and efforts to add to the mutual good of the people of the community. It is the spirit that has as its fundamental principle the belief that the town we live in is the best town in the west, that spreads that belief and makes a slogan of it, that hammers it into neighbor and stranger alike and that leads the man who holds it to take hold of the work of bettering his community with vim and enthusiasm.

Let us look at this town building principle from a business standpoint. What will it do for you, Mr. General Storekeeper, and you, Mr. Shoe Merchant, and you, Mr. Hardware Dealer? Will it pay you in dollars and cents for the time and money put into it?

In the first place it will teach the people of the town to take an interest in the town's affairs, to believe that what is for the good of the town's merchants and manufacturers is for the good of the town in general and for their good in particular. It will teach them their true position as regards their duty to the business people of the town. It will bring the merchant and the rank and file of his customers nearer together and place them on a better basis of mutual understanding. The education of the buying public is a necessity; it is quite probable that most of the best customers of the mail order houses do not realize that each order they place outside their own town is not only a blow at the welfare of the home merchant, but a proof as well of their own lack of loyalty to their home community.

The movement for community progress has a direct effect in the way of attracting new industries. The increase in population which naturally follows, the greater volume of trade, the greater possibilities of the future—all these are goals which should attract the attention and receive the stimulus of the assistance of the local merchant. The same circumstances which mean the increase of business mean also the material increase in value of his business, his buildings and other property, the possibility to expand and become more important in a financial and business way.

It would seem then as if these community improvement movements bring results both at home and abroad. While the latter aim is always the motive of these movements, the home missionary work accomplished is most important also. Such movements will wake the townspeople up to the fact that the old town has a great many advantages that they never dreamed of, that it is worth while to work for its benefit and betterment, that it is the people in the town and not the town itself that are responsible for the town's progress or its lack of progress. When they once awake to this fact the community improvement movement is always bearing fruit.

But before the rank and file of the population can be expected to take hold of such a movement it is a patent fact that the merchants and the business element generally must begin the work and must shoulder the responsibility. Properly conducted such a campaign is certain to bear fruit and, with a proper condition to sustain it, is worth the support of the business community.—Commercial.

## Hon. Edward Blake Dead

Toronto, March 2. Hon. Edward Blake, one of the most celebrated of Canadian public men, died at his residence, 45 Jarvis street, yesterday, after an illness of five years. He was for a number of years leader of the Liberal party in the Dominion.

The death of Hon. Edward Blake removes from Canadian and imperial life a great statesman. His political career began in 1867 when he was elected both to the House of Commons and to the Ontario legislature. In 1869 he accepted the leadership of the Liberals in the legislature and he formed, in 1871, the federal administration that succeeded the Sanfield Macdonald government, becoming president of the council. On the abolition of dual representation he resigned the premiership and was succeeded by Sir Oliver Mowat. Mr. Blake then devoted all his attention to federal politics, and in 1873 he became a member of the Privy Council, and in 1875 he was appointed minister of justice. On the defeat of the Liberal party in 1878 he became its leader in opposition, in which position he was succeeded, on retiring in 1887, because of ill health, by Sir Wilfrid Laurier. In 1892 he ran for the Imperial Parliament, standing for South Langford, and was elected, the vote for him being 2544, while his opponent, J. C. Miller, only received 347. Mr. Blake retired from imperial politics in the late nineties, after a career both distinguished and useful.

Hon. Mr. Blake was a brilliant jurist, a recognized savant, an able orator and a great statesman. He was a splendid type of Canadian and may well serve as a model to future generations.

## Will Be Repealed

A late dispatch from Ottawa says: The Laurier naval bill will be repealed by the present government. Mr. Borden will formulate a new policy which will be submitted to parliament and before any permanent naval program is put into force, the people of Canada will be given an opportunity to pronounce on it.

The above is the text of a reply made by Premier Borden in the house today to Mr. Mondou, Quebec Nationalist member. Mr. Mondou asked if it was the intention of the government to repeal the naval service act, and if in such an event a new policy would be brought down. Would it be submitted for the approval of the people before being put into force?

Premier Borden replied in the affirmative to all these questions. His reply was: "After such consideration and inquiry as may be made, the government will present its naval policy to parliament and the people. That policy will undoubtedly require legislation which will involve the repeal of the present naval service act. In the meantime that act will remain on the statute book for purpose in connection with the fisheries protection service and otherwise. Before any permanent naval policy is put into force the people will be given an opportunity to pronounce upon it."

### THE WORLD'S WORK DEPENDS ON THE WORLD'S DIGESTION

From the captain of industry to the hod carrier—from milady in the auto to the woman with the scrubbing brush—the accomplishments of every one of us depend absolutely on the accomplishments of our stomachs. Backed by a good digestion, a man can give the best that is in him. When his stomach fails, he becomes a weakling.

To this loss of power no one can submit. Right habits of eating, drinking, sleeping and exercise, aided by Na-Dru-Co Dyspepsia Tablets, will restore and maintain the full efficiency of the human mind and body.

Na-Dru-Co Dyspepsia Tablets contain the active principles needed for the digestion of every kind of food. They go to the assistance of the weakened stomach, and ensure the work from the start, to assimilate and get the benefit of the food eaten. With this assistance, the digestive organs regain their tone, and soon the use of the tablets is no longer necessary.

If your stomach is not working properly, try Na-Dru-Co Dyspepsia Tablets, 50c, at your druggist's. National Drug and Chemical Co. of Canada, Limited, Montreal.

**Rotation of Crops**  
"The rotation of crops is one of the three essentials to any agriculture worthy of the name. Our low average yields is due to the antiquated system all too prevalent of raising the same crop indefinitely on the same land until it has been worn out or so reduced until the owner is in danger of poverty. There is no exaggeration in the statement that our farm production could be made two-fold what it is by the mere application of more careful methods without any extensive cultivation whatever."—James J. The Tablets quickly relieve and cure all the minor ills of babyhood and childhood. They sweeten the stomach, regulate the bowels, expel worms, break up colds and make baby healthy, happy and fat. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In addition to curing her Red Cross Corp with only one box of Tablets, she is able to rescue a friend who calls for aid. Italy will aid medical ambulances for clearing battlefields of wounded men.

**A Real Asthma Relief.** Dr. J. D. Kellogg's Asthma Remedy has been advertised by extravagant statements. Its claims are conservative indeed, when judged by the cures which it performs. Expect real relief and permanent benefit when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so-called remedies have utterly failed.

**SPLENDID WORK DODD'S KIDNEY PILLS ARE DOING**

**Mrs. Norman L. Dow Tells What They Have Done for Her—People Talking of Them on Every Side:**

Port Daniel West, Bonaventure Co., Que. (Special)—Bonaventure County is ringing with the great work done by Dodd's Kidney Pills and every side people are to be heard of the great Canadian Kidney remedy. To the mass of evidence already published is now added that of Mrs. Norman L. Dow of this place. "I can recommend Dodd's Kidney Pills as an excellent remedy for rheumatism and palpitation of the heart," said Mrs. Dow. "After using one box I was greatly benefited."

Dodd's Kidney Pills cure rheumatism and palpitation of the heart, because they both come from the same cause—impure blood. Dodd's Kidney Pills make the kidneys right, and when the kidneys are right they strain all the poison and impurities out of the blood. Cure the kidneys with Dodd's Kidney Pills and you can't have such diseases as rheumatism or palpitation of the heart.

### THE PLOW THAT PROVES ITS WORTH

This is our new model "Double Ball Gang Plow." Every farmer who owns one of these Plows is asked to take it out in the field and test it. We expect him to compare its work with that of any other high-grade Plow and we leave our Plow to speak for itself. Ten days of this kind of test under actual working conditions, and to get the good points, or the bad points of any Plow. After working our Plow for ten days, if any farmer thinks it is not getting a thoroughly good Plow, and if a price he would rather return it, we will take the Plow off his hands, will give him back the purchase price in full, and will pay the freight both ways on the returned Plow. This is the EATON way of doing business—absolutely fair and square, and by which no customer can possibly lose. We are sure that such an offer is better for far than the ordinary "see-before-you-buy" proposition. We are sure that only a Plow that is better than the EATON Plow is the EATON Plow. PROVE ITS WORTH.

We are particularly anxious that every farmer should know that his Plow is safe in buying Plows from us. But that is not the chief reason why we expect the order. The chief reason is the Plow itself. It is a remarkably good Plow. Try it yourself and be convinced. Another reason is our low price. We sell for cash direct to the farmer. That explains why our Gang Plow sells at \$65.00, and a Sulky of the same pattern at \$43.00.

### DO YOU NEED A GOOD PLOW?

If so, write us and address your letter to Department 41. Tell us what style and size of Plow you want, and we will give you full particulars and show you exactly what the Plow one, and our business method will not put you off with the usual "see-before-you-buy" proposition. We have the best Plows in the world. We have the best Plows in the world. We have the best Plows in the world.

The Council met on Monday night  
in the Council Chambers. Those  
present were Mayor Atkins, Council-  
men St. Clair, Shantz, Wrigglesworth,  
Owler, Chambers and Coover.

Bills in the hands of Secretary were  
ordered paid as follows: Didsbury  
Pioneer, \$10.25; M. Ryckman \$13.  
The ladies of the Didsbury W. C.  
T. U. set a communication to the  
Council asking if they would assist  
financially in establishing a W. C.  
A. in the town. The communication  
was signed by Mrs. W. Mowers, Mrs.  
W. Martin and Mrs. W. Wriggles-  
worth.

The clerk was asked to notify this  
committee and invite them to the  
Council meeting to lay their plans be-  
fore the Council.

It was decided to pay D. Cressman  
\$2 extra for services rendered at  
Hiebert's fire.

## What is Dry Farming?

Dry farming is the science of agri-  
culture as applied to farm operations  
in regions of limited or uncertain rain-  
fall.  
Dry farming is better farming and  
is a profitable system for every farmer  
upon every farm in every district of  
the world.

Dry farming is not farming without  
moisture, but is the method by which  
the natural rainfall is conserved in the  
soil; soils are enriched and drought  
resistant plants are developed with the  
object of saving the moisture. Dry  
farming practice develops the best  
farmers on earth.

The congress is a popular, scientific  
society of farmers, and it is worth  
hundreds of dollars a year to any  
farmer to participate actively in its  
work.  
The adoption of its precepts and  
teachings will enable any farmer in  
Western Canada to raise a better and  
bigger crop than he is now doing.  
This Congress and Exposition is  
the greatest of its kind in the agricul-  
tural world upon this province, and  
there is no question but that the big-  
gest farming congress that has ever  
been held will take place in Leth-  
bridge, October 21 to 26, and we be-  
lieve that the Exposition which will be  
held in connection with it will be the  
best exhibits of agricultural products  
and agricultural machinery that has  
ever been held in Canada.
